PROFILE

I am a skilled backend developer with a passion for building robust and scalable web applications. I have experience in designing and implementing RESTful APIs, working with databases, and handling server-side logic. My proficiency includes:

- Python web frameworks: Django, FastAPI

- Database management: SQL

- Working with APIs

- Data processing

EXPERIENCE

2022 – 2023
ECOMMERCE PROJECT 1

ECOMMERCE PROJECT
Created an e-commerce app with ordering capabilities and integrated a secure payment gateway using Django and Python.

2022 – 2023
RESTFUL API PROJECT 2
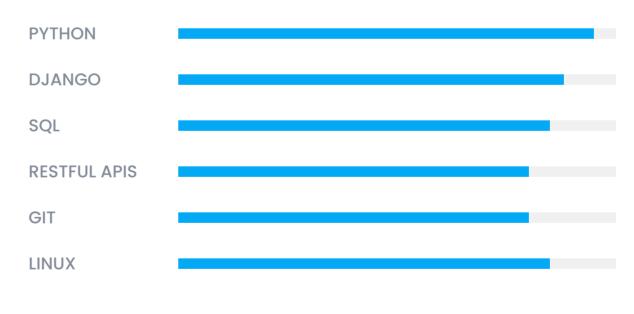

RESTFUL API PROJECT
Built a robust Python/Django RESTful API for seamless integration with other software. Includes authentication, CRUD, caching, and pagination for optimal performance

2022 – 2023
AUTHENTICATION API PROJECT 3

AUTHENTICATION API PROJECT
Created a Django-based API for user authentication, login, and role-based access using JWT for secure authentication.
